The letter from Johnny Tackett to Oswald may be typical of the sort of goodie in the FBI exhibits. If Oswald didn't respond - and I am checking for interviews (*-2H343) of Tackett now - it pretty well confirms that the material on Russia which he was getting typed was not for a book, but rather some sort of official business.

Copy of the relevant [REDACTED] (Davison) pages of Joesten's "Truth Letter" enclosed.
